Re: Stormcrete Precast Porous Concrete System

Dear Mr. McKee:

Please be advised that the above referenced product is hereby **re-approved** for use in Montgomery County. This re-approval is based on the following conditions:

1. This approval is valid for a period not to exceed five years. The manufacturer must re apply for approval to continue use of this product prior to the end of the five-year period or the product may no longer be acceptable for use in Montgomery County.
2. This permeable pavement system must meet the standards outlined in Chapter 5 and Appendix B.4 of the MDE 2000 Stormwater Management Design Manual and any subsequent revisions.
3. This product must comply with the most current Montgomery County design requirements for permeable pavements.
4. The manufacturer must obtain written approval from the Montgomery County Department of Transportation and the Department of Permitting Services Right of Way Section prior to being allowed to use this product in a public right of way.
5. The manufacturer and the design engineer must provide any special considerations for this product where soil stability may be a concern.
6. Any changes or modifications to the approved design parameters of this product must be submitted to DPS for approval prior to use in Montgomery County. Failure to do so may result in revocation of this approval.
